

# RfG Implementation Proposed Compliance Workshop Agenda

Antony Johnson / Ian Nuttall  
*National Grid – Electricity Policy and Performance*

*June 2017*

# Summary

---

- **To provide some structure and direction for RfG Compliance it is proposed to hold an industry workshop in mid to late July**
- **Aim – to allow NOs and Generators to develop a structured approach as to how Compliance would expect to be demonstrated within the RfG environment**

# Draft Agenda

---

- 1) Type C and D – As per current GB practice
- 2) Type B – Routes to Compliance
  - a. Transmission Connections
  - b. Distribution Connections
- 3) Type A – Routes to compliance and alternatives to Equipment Certificates
- 4) Feedback from ENTSO-E
- 5) Power Generating Module Documents (Applicable to Type B and C)
- 6) Differences from GB Practice.
- 7) Examples of how compliance demonstration would work in practice
- 8) AOB / Questions
