Daily Balancing Costs

Date:

08/03/2018

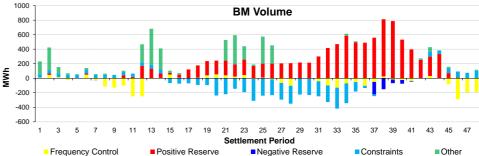

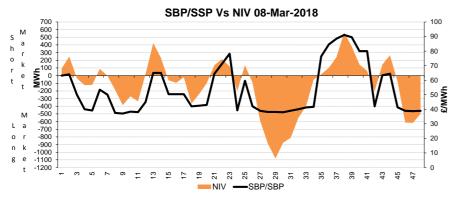

Energy Imbalance

- Positive Reserve (Op Res + STOR + BM Start Up)
- Negative Reserve (Footroom)
- Frequency Control (Response + Fast Reserve)
- Constraints (BM & Trades only)
- Other (Reactive + Black Start + BM + AS General)

Commentary

1083MW of STOR was run over the evening peak.

One trade was taken for voltage overnight in the North West. No trades were required for constraints or Rocof. BM actions were taken on units in Wales throughout the day for a local constraint. A small number of BM actions were taken on units in the Midlands area due to a overhead line fault.
