

STCP27-01

[Proposed System Monitoring Policy]

Dr Phil Ashton

Fiona Williams

26 September 2018

Summary

- **Following the 13 December 2017 panel**
 - Workgroup formed to develop a policy/new STCP
 - Representatives from all TOs and one OFTO
- **Key aim was to draft a policy for mutual benefit**

Main Premise

- **TOs to install PMUs**
 - At every GSP
 - And at each point where a generator or an Interconnector is connected to the NETS
- **Data to be time-stamped**
- **Real-time streaming from nominated sites**

Next Steps

- **Deadline of 2024 just a proposal**
- **SO to set up communications**
- **6 monthly progress review**

National Grid Code Administrator

Ren Walker

26 September 2018

Justification against Applicable STC Objectives

The Proposer believes that this change will better facilitate relevant objective(s) A & E and Section B 7.3.2 and administration of the arrangements described in the STC is satisfied.

(a) efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act

(e) promotion of good industry practice and efficiency in the implementation

Modification route for PM0107

Section B 7.3 states amendments for a STCP need approval from the STC Modification Panel. The Proposer recommends that this final proposal should now be approved and implemented by 31 October 2018.

PM0107

The STC Panel must by majority approve that the change would better facilitate the STC Applicable Objectives. A sign off session to be arranged by the Code Administrator.

Proposed Timetable for PM0107

Proposal Form Submitted to Code Administrator for review	10 September 2018
Proposal form submitted to STC Panel Secretary	18 September 2018
STCP's are presented and approved by the Panel	26 September 2018
Sign off	By 10 October 2018
Implementation	By 31 October 2018
