

CUSC Amendment Proposal Form	CAP: 072
Title of Amendment Proposal: Generation Reconciliation Statements	
Description of the Proposed Amendment (mandatory by proposer): <p>CAP072 will re-instate Paragraph 3.12.2 into the CUSC. This was erroneously deleted after the implementation of CAP065. The new Paragraph will actually become 3.13.2 after the implementation of CAP055.</p> <p>Paragraph 3.12.2 required NGC to produce a Generation Reconciliation Statement in respect of generation related TNUoS Charges and send it to the User as soon as practicable and in any event by 31st March in each financial year. The Statement shall specify the Actual Amount and the Notional Amount of generation related TNUoS Charges for each month during the relevant Financial Year and, in reasonable detail the information from which such amounts were derived and the manner in which they were calculated.</p>	
Description of Issue or Defect that Proposed Amendment seeks to Address (mandatory by proposer): <p>CAP065 was a Housekeeping Amendment Proposal submitted to the Panel by National Grid with a number of other Housekeeping Amendments on 18th September 2003. CAP065 proposed the deletion of a number of redundant Paragraphs in the CUSC related to NETA Go-Live. The Amendment Proposal included a list of Paragraphs for deletion one of which was Paragraph 3.12.2. This was an error - the Amendment Proposal should have referred to Paragraph 3.13.2 for deletion and not 3.12.2. The Authority approved CAP065 on 23rd December 2003 for implementation on 2nd January 2004. NGC agreed at the CUSC Amendments Panel meeting held on 26th March 2004 that there had been an error in CAP065 and agreed to bring forward an Amendment Proposal to the April 2004 Panel meeting to rectify the position.</p> <p>A Housekeeping Amendment will be submitted to the Panel separately to propose deletion of Paragraph 3.13.2 (which will become Paragraph 3.14.2 after the implementation of CAP055 on 23rd April) in due course.</p>	
Impact on the CUSC (this should be given where possible): <p>Paragraph 3.12.2 will be re-instated in the CUSC (see attachment). Post-implementation of CAP055 this will actually become Paragraph 3.13.2 in the CUSC.</p>	
Impact on Core Industry Documentation (this should be given where possible): <p>None.</p>	
Impact on Computer Systems and Processes used by CUSC Parties (this should be given where possible): <p>None.</p>	
Details of any Related Modifications to Other Industry Codes (where known): <p>None.</p>	
Justification for Proposed Amendment with Reference to Applicable CUSC Objectives** (mandatory by proposer): <p>Correcting the CUSC in this way will enable National Grid to fulfil its obligations to facilitate competition in the generation and supply of electricity. Provision of the Generation Reconciliation Statements will enable National Grid to more easily and efficiently discharge its obligations under the</p>	

Act and the Transmission Licence.

Details of Proposer: Organisation's Name:	The National Grid Company plc
Capacity in which the Amendment is being proposed: (i.e. CUSC Party, BSC Party or "energywatch")	CUSC Party
Details of Proposer's Representative: Name: Organisation: Telephone Number: Email Address:	Ben Graff The National Grid Company plc 01926 656312 ben.graff@uk.ngrid.com
Details of Representative's Alternate: Name: Organisation: Telephone Number: Email Address:	Richard Dunn The National Grid Company plc 01926 656211 richard.dunn@uk.ngrid.com
Attachments (Yes/No): Yes If Yes, Title and No. of pages of each Attachment: Text of Paragraph 3.12.2 for re-insertion in the CUSC (1 page)	

Notes:

- Those wishing to propose an Amendment to the CUSC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 8.15 of the CUSC. The form seeks to ascertain details about the Amendment Proposal so that the Amendments Panel can determine more clearly whether the proposal should be considered by a Working Group or go straight to wider National Grid Consultation.
- The Panel Secretary will check that the form has been completed, in accordance with the requirements of the CUSC, prior to submitting it to the Panel. If the Panel Secretary accepts the Amendment Proposal form as complete, then he will write back to the Proposer informing him of the reference number for the Amendment Proposal and the date on which the Proposal will be considered by the Panel. If, in the opinion of the Panel Secretary, the form fails to provide the information required in the CUSC, then he may reject the Proposal. The Panel Secretary will inform the Proposer of the rejection and report the matter to the Panel at their next meeting. The Panel can reverse the Panel Secretary's decision and if this happens the Panel Secretary will inform the Proposer.

The completed form should be returned to:

Richard Dunn
Panel Secretary
Commercial Frameworks
National Grid Company plc
National Grid Transco House
Warwick Technology Park
Gallows Hill
Warwick, CV34 6DA
Or via e-mail to: CUSC.Team@uk.ngrid.com

(Participants submitting this form by email will need to send a statement to the effect that the proposer acknowledges that on acceptance of the proposal for consideration by the Amendments Panel, a proposer which is not a CUSC Party shall grant a licence in accordance with Paragraph 8.15.7 of the CUSC. A Proposer that is a CUSC Party shall be deemed to have granted this Licence).

3. Applicable CUSC Objectives** - These are defined within the National Grid Company Transmission Licence under Section C7F, paragraph 15. Reference should be made to this section when considering a proposed amendment.

Text of Paragraph 3.12.2 for insertion in the CUSC (NB: This will become Paragraph 3.13.2 after the implementation of CAP055 on 23rd April)

Generation Reconciliation

- 3.12.2 As soon as reasonably practicable and in any event by 31 March in each **Financial Year NGC** shall prepare a generation reconciliation statement (the "**Generation Reconciliation Statement**") in respect of generation related **Transmission Network Use of System Charges** and send it to the **User**. Such statement shall specify the **Actual Amount** and the **Notional Amount** of generation related **Transmission Network Use of System Charges** for each month during the relevant **Financial Year** and, in reasonable detail, the information from which such amounts were derived and the manner in which they were calculated.
