## New Actions from January Panel 2019

SQSS	Ref	Background	Owner	Action	Current Position	Due by	Status
Jan 2019	29.5	<b>SQSS Implementation</b>	CB	To take forward and provide clarity/solution at next Panel as to how we can be more transparent going forward	When Authority decision is received on a modification, there is some considerable time delay before the modification is implemented and updated version available to industry.	13 March 2019	Open
Jan 2019	29.6	<b>Chapter 7 Variations to connection Designs</b>	GH	To provide clarification at next Panel of the ESO position on this matter	The process of requesting that a generation connection is based on a Variation to Connection designed, widely referred to as "Customer Choice" is not sufficiently clear.	13 March 2019	Open
Jan 2019	29.7	<b>Chapter 7 Substation bays &amp; minimum requirements</b>	GH/RWS	To investigate and provide the ESO position on this matter	Workgroup unable to reach agreement on the minimum requirements for substation bays. GH to investigate and update Panel at next meeting in March.	13 March 2019	Open
Jan 2019	29.8	<b>Chapter 7 Dynamics and Short Term Ratings</b>	CB	To speak to Ofgem for guidance on how to resolve the risk issues.	Ofgem to clarify if this can be resolved without resorting to code modification as this is a commercial risk	13 March 2019	Open
