

Code Administrator Meeting Summary

GC0111 (self-governance modification)

Date: 07 February 2019

Code Administrator

Chair: Matthew Bent

Contact details: Matthew.Bent@nationalgrid.com / 07785428175

Technical Secretary: Emma Hart Contact details: Emma.Hart@nationalgrid.com / 07790370027

Key areas of discussion

The Workgroup discussed the following:

- Revision to the fast fault current injection requirements to be included as part of the solution.
- Legal text
 - agreed to remove the formulas and have an operating envelope.
 - minor amendments relating to the compliance aspects of the modification.
- Draft Workgroup report and whether there are further revisions required.
- Possibility of a Workgroup Alternative Grid Code Modification being raised to address a Workgroup members concern in relation to unbalanced faults.

Next steps

The Workgroup agreed that the following next steps:

- The Workgroup member to confirm whether a Workgroup Alternative Grid Code Modification will be raised in relation to addressing the concern on unbalanced faults.
- Workgroup to vote on whether they have discharged its Terms of Reference (subject to any Workgroup Alternative Grid Code Modification being raised) – scheduled for Wednesday 13 February 2019.
