Charging Circular – Update: BSUoS HH Prices Via SFTP

Wednesday 30th January 2019

Dear BSUoS customer,

Further to the charging circular that we issued on the 21st January 2019 we would like to update you on the new BSUoS Half Hourly prices file that is available via our SFTP server.

It's fair to say that we had a few problems with the initial roll out of this new file, so first we would like to apologize for any problems you may have experienced accessing the new file on the SFTP service in the past week.

Despite working ok in our test environment, the production system had issues with the structure of the filename so we have implemented a change that has gone live from today. The revised file format is defined below and this will be used from this day forward. The content of the file is unchanged.

This new file was made available at the request of customers so that web prices for the daily invoices were available via our SFTP service along with BPA and BCR reports.

Please get in touch with the team using the contact details below if you require further information or would like to give us feedback about this or anything else BSUoS related.
