### Key areas of discussion

The Workgroup discussed the following:

- The workgroup focused on finalising the workgroup reports for both CMP280 and CMP281. This involved finalising the Section 14 legal text that had been produced to enact the changes introduced by CMP280 and CMP281 into the CUSC, reviewing and concluding the workgroup report and completing the workgroup vote.
- The outcome of the workgroup vote was that the workgroup voted by majority for preference of WACM1 as opposed to the Original for CMP280 and voted in favour of the Original for CMP281 as opposed to the baseline.
- The workgroup reviewed the modification proposed which introduced the definitions in Section 11 of CUSC as a result of CMP280 and CMP281 ready for this to be raised formally at Panel in June.

## Next steps

The Workgroup agreed that the following next steps:

- The terms of reference have been met through the workgroup and the workgroup report can progress to Panel to be issued for Code Administrator Consultation.
