Contact details: Rob.Marshall@nationalgrideso.com
07824 518958

Proposers: Harriet Harmon, National Grid ESO
Harriet.Harmon@nationalgrideso.com

Key areas of discussion

The Workgroup discussed the following:

- The workgroup meeting focussed initially on an introduction to the modification from the proposer, then moved on to agree the Terms of Reference to go back to CUSC Panel, and began initial workgroup discussions.
- The workgroup also spent time discussing the calculation contained in section 14.14.5 (v), and the impact of changing this calculation in different ways.
- The workgroup discussed the future approach for the workgroup, dependent upon the chosen implementation date of either April 2020 and April 2021. It was agreed that the workgroup will meet in the coming weeks to maintain momentum.
- The workgroup also discussed the structure to approach the modification . This is :
 1. Order of calculation contained in 14.14.5(v)
 2. Definition of assets required for connection

3. Where in the range of €0-€2.50/MWh range is targeted
4. Ex-Post Adjustment mechanism

Next steps

The Workgroup agreed that the following next steps:

- The workgroup would indicate their availability for the next workgroup, to be held on either the week commencing 15/07/2019 or 22/07/2019.
