Richard.Woodward@nationalgrid.com
07964 541743

Key areas of discussion

The Workgroup discussed the following:

- The workgroup meeting focussed progressing the modification forwards as the workgroup hadn't met for some time.
- Discussions involved information exchange, legal text, development of the proposed solution, implementation windows and timelines of the modification.
- The workgroup discussed the future approach for the workgroup, and when next workgroups are to be held to maintain momentum.

Next steps

The Workgroup agreed that the following next steps:

- The workgroup will work on actions ahead of the next meeting, which is TBC.

Actions (from this meeting)

Number	Action	Status
1	Code Admin to include paragraph to answer the question on barrier in entry in the workgroup report	Open
2	Code Admin to update the workgroup report on the 3-4 scenarios of existing and new contracts.	Open
3	SSE and National Grid TO to arrange a catch up in regards to Action 3 and work up any alternatives	Open
4	National Grid TO to provide wording of Action 3	Open
5	National Grid TO contact Scottish Transmission Owners and discuss 288/289	Open
6	National Grid TO shall identify specific sections of the STC that will need to be amended to close down Action 5	Open
7	Diagrams to be captures in WG Report	Open
8	National Grid TO to confirm when the timing of the payment of these charges needs to be any different to the one off works charges	Open
9	NGESO and Proposer to look at Schedule 2 Exhibit 3 & 3A and identify any changes that need to be made around the provision of information	Open
10	In the event a user decides to change terms for delay or back feed charge, there would be no mod app fee and it would be a free change - TOs and NGESO to confirm	Open

For further information, please contact the Code Administrator.
