

# Grid Code Panel Headline Report

## 29 August 2019

The Grid Code Review Panel Headline Report is produced after every Grid Code Review Panel (the Panel) and aims to provide an overview of the key decisions made.

### Approval of 30 July 2019 Minutes

The minutes from the Panel meeting held on 30 July 2019 were approved subject to the incorporation of amendments requested by Panel members. These will be shortly available on the National Grid ESO website [here](#)

### Prioritisation Stack

The latest version of the Workgroup Prioritisation Stack is set out in the “Grid Code Prioritisation Stack 30 August 2019” spreadsheet

- The new modification GC0130 was placed 3<sup>rd</sup> in the stack primarily as implementation is needed for early Q1 2020.
- A Panel member argued for GC0105 and GC0109 to be moved up the stack; however, Panel agreed for these to remain in their current position because:
  - GC0109 already has a high priority behind two modifications relating to EU compliance, one that was sent back to the WG for minor clarification, and the new GC0130; and
  - GC0105 already has a clear way forward with a meeting scheduled for 16 September 2019.

### Modification Proposals & Panel Vote

There was one New Modification Proposal for consideration:

#### **GC0130 – OC2 Change for simplifying ‘output useable’ data submission and utilising REMIT data**

The Panel agreed unanimously that GC0130 met the Self Governance criteria and agreed the modification should proceed to a Workgroup.

GC0130 documentation can be located [here](#).

### New/Pending Authority Decision

There were no new/pending Authority Decisions.

### Draft Final Modification Reports

There were no Draft Final Modification Reports presented to Panel.

### Workgroup Reports

#### **GC0125 - EU Code Emergency & Restoration: Black Start testing requirements for Interconnectors, HVDC System Owners and Owners of Transmission DC Converters**

The Panel agreed that the Workgroup had met the Terms of Reference and GC0125 should proceed to Code Administrator Consultation, which will be issued w/c 2 September. This will be available [here](#).

### Questions or feedback?
