### Energy Imbalance

- Positive Reserve (Op Res + STOR)
- Negative Reserve (Footroom)
- Frequency Control (Response + Fast Reserve)
- Other Reserve (Ancillary Costs Only)
- Constraints (BM & Trades only)
- Other (Reactive + Black Start + BM & AS General)

## Commentary

The market alternated long and short throughout the day. It became long evening onwards as wind increased overnight.

From mid-afternoon onwards some BM actions were taken to relieve power flow constraints in Scotland. Voltage support overnight for the South/South East, Midlands and North West areas assisted with Trades and BM Actions. Trades and Interconnector Trades helped maintain System Inertia overnight.
