

STCP Modification Proposal Form PM091

System Operator – Transmission Owner Code (STC)

Title of the STCP Modification Proposal
<i>Change of STCP20-1 “Seven Year Statement” to “Electricity Ten Year Statement”</i>
Submission Date
<i>19th July 2016</i>
Description of the Issue or Defect that the STCP Modification Proposal seeks to address
<i>The transmission license requirements have changed so the Seven Year Statement and Offshore Development Information Statement are no longer need to be produced but a single Electricity Ten Year Statement does in their place. The STC, STCP 20-1 and STCP 21-1 need updating to reflect this.</i>
Description of the STCP Modification Proposal
<i>The proposal is to change all references from SYS to ETYS and update the procedures for ETYS. The ETYS has many similarities to the old SYS so much of the procedure from the old STCP have been retained but updated to apply to ETYS.</i>

Justification for STC Modification Proposal with Reference to Applicable STC Objectives:

This section is mandatory. You should detail why this Proposal better facilitates the Applicable STC Objectives compared to the current baseline. Please note that one or more Objective must be justified.

Please tick the relevant boxes and provide justification:

(a) efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act

NGET has licence obligations to produce Electricity Ten Year Statement (ETYS) and the Network Options Assessment (NOA) report. SPT and SHE Transmission have licence obligations to provide the information required by NGET to fulfil this licence obligation.

(b) development, maintenance and operation of an efficient, economical and coordinated system of electricity transmission

(c) facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity

(d) protection of the security and quality of supply and safe operation of the national electricity transmission system insofar as it relates to interactions between transmission licensees

(e) promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC.

(f) facilitation of access to the national electricity transmission system for generation not yet connected to the national electricity transmission system or distribution system;

(g) compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency.
