

Grid Code Panel Headline Report

28 November 2019

The Grid Code Review Panel Headline Report is produced after every Grid Code Review Panel (the Panel) and aims to provide an overview of the key decisions made.

Approval of Panel Minutes

The minutes from the Panel meeting held on 29 October 2019 were approved subject to the incorporation of amendments requested by the Panel Chair re: prioritisation. These will be shortly made available on the National Grid ESO website.

New Modifications

There were 0 new Modification Proposals for consideration.

Prioritisation Stack

The latest version of the Workgroup Prioritisation Stack is set out in the “Grid Code Prioritisation Stack 28 November 2019” spreadsheet. There were no movements in the Prioritisation Stack.

Authority Decisions

Authority confirmed that they would be looking to make decisions by 17 December 2019 on:

- **GC0125** - EU Code Emergency & Restoration: Black Start testing requirements for Interconnectors, HVDC System Owners and Owners of Transmission DC Converters); and
- **GC0129** - Updating the Grid Code to use Engineering Recommendation G5/5 – Harmonics).

In flight Modifications

Please refer to latest Modification Tracker for an update on each in flight Modification. This is published monthly at <https://www.nationalgrideso.com/codes> and will be next updated and published on 3 December 2019.

Draft Final Modification Reports

GC0127/GC0128 – EU Code Emergency & Restoration: Requirements resulting from System Defence Plan (GC0127) and System Restoration Plan (GC0128)

Panel carried out recommendation vote and the majority recommended that the GC0127/0128 Original, WAGCM1, WAGCM2 and WAGCM3 better facilitated the Grid Code Objectives than the Baseline. Of the 9 votes, 7 thought the Original was the best option, 1 thought WAGCM2 and 1 thought WAGCM3 was the best option. Given the timescales for final Authority Decision, Panel agreed to a shorter period to review the Final Modification Report before it is sent to the Authority on 3 December 2019.

GC0127/0128 documentation can be located [here](#).

GC0096 – Energy Storage

Panel carried out recommendation vote and unanimously recommended that the GC0096 Original better facilitated the Grid Code Objectives than the Baseline. Final Modification Report is planned to be sent to the Authority on 9 December 2019.

GC0096 documentation can be located [here](#).

Workgroup Reports

There were 0 new Modification Proposals for consideration
