

Code Administrator Meeting Summary

Meeting Name: GC0125 Workgroup 1 (note there was an “informal” meeting held on 9 May 2019)

Date: 3 June 2019

Contact Details

Chair: Paul Mullen

Contact details: paul.j.mullen@nationalgrideso.com

Proposer: Tony Johnson

Contact details: antony.johnson@nationalgrideso.com

Key areas of discussion

- Majority of meeting was spent walking through the proposed legal text:
 - Although there may be an opportunity to combine the requirements on Interconnectors and Generation, the agreed approach is to first ensure that the requirements on Interconnectors are clear and align where appropriate with requirements on Generators and only then look to see wording can be combined whilst ensuring it doesn't have any knock-on impacts on other parts of Grid Code; and
 - Legal Review will still be required; however, this is not needed prior to workgroup consultation being issued. Note though that the proposed additions to the definition of “Black Start Contract” and the use of “shall” and “may” throughout OC 5.7.1 have been flagged to the ESO's legal team.
- Incorporating the requirements of Emergency and Restoration Code Articles 43 and 51 to be picked up as part of GC0128 rather than GC0125.

Next steps

The Workgroup agreed that the following next steps:

- Updated workgroup report and legal text to be issued to workgroup on 10 June;
- Next meeting 13 June to finalise legal text and workgroup report; and
- Workgroup consultation to be issued 14 June.

Actions from this workgroup meeting (all added to action log as this was 1st workgroup meeting)
