

<b>CUSC Amendment Proposal Form</b>	<b>CAP:151</b>
<b>Title of Amendment Proposal:</b>	
Construction Agreements Works Register	
<b>Description of the Proposed Amendment</b> <i>(mandatory by proposer):</i>	
<p>It is proposed to amend the CUSC to provide an obligation on the Company to establish and maintain a register of Transmission Reinforcement Works set out in Generators' and Interconnector Owners' Construction Agreements and/or BELLAs, until such Transmission Reinforcement Works are completed.</p> <p>The Works Register will, in respect of each such Construction Agreement and BELLA, set out:</p> <ul style="list-style-type: none"> <li>• the name of the Generator or Interconnector Owner,</li> <li>• the Connection Site (or in the case of an Embedded Generator the site of connection),</li> <li>• the Completion Date(s) and;</li> <li>• the Transmission Reinforcement Works which relate to such Construction Agreement and BELLA (each as amended from time to time).</li> </ul> <p>The Works Register shall be published on the Company Website within 10 business days of completing the agreements.</p> <p>It is proposed that the register will provide a more comprehensive and timely picture of the works required to connect a certain generation project. The register is intended to provide a process for mapping works against construction agreements entered into to facilitate the connection of generation projects. This information will enable users to better determine any gaps that could appear as a consequence of a user reducing capacity or terminating their construction agreements.</p>	
<b>Description of Issue or Defect that Proposed Amendment seeks to Address</b> <i>(mandatory by proposer):</i>	
<p>There is currently very little information on the works required to connect any generation projects and it is therefore difficult for developers and potential developers to determine the impact of any new application or the consequence/opportunity project attrition. Some of this data is contained within table 6.2 of the Seven Year Statement, however this data is limited and not contract specific.</p>	
<b>Impact on the CUSC</b> <i>(this should be given where possible):</i>	
None anticipated	
<b>Impact on Core Industry Documentation</b> <i>(this should be given where possible):</i>	
None anticipated	
<b>Impact on Computer Systems and Processes used by CUSC Parties</b> <i>(this should be given where possible):</i>	
Development of the Company's website to include this data.	

<b>Details of any Related Modifications to Other Industry Codes</b> <i>(where known):</i>  Not Applicable
<b>Justification for Proposed Amendment with Reference to Applicable CUSC Objectives**</b> <i>(mandatory by proposer):</i>  This amendment will provide Users with a more comprehensive and timelier picture of GB transmission capacity. This will facilitate Users to identify opportunities to connect earlier as a result of changes to the contracted background. If implemented the proposed changes will further the efficient use of the system and better facilitate competition in generation. Consequently, better facilitating both CUSC Applicable Objective's (a) and (b).

<b>Details of Proposer:</b> Organisation's Name:	National Grid
<b>Capacity in which the Amendment is being proposed:</b> (i.e. CUSC Party, BSC Party or "energywatch")	CUSC Party
<b>Details of Proposer's Representative:</b> Name: Organisation: Telephone Number: Email Address:	Phil Collins National Grid 01926 656143 <a href="mailto:Phil.Collins@uk.ngrid.com">Phil.Collins@uk.ngrid.com</a>
<b>Details of Representative's Alternate:</b> Name: Organisation: Telephone Number: Email Address:	Clare Talbot National Grid 01926 656377 <a href="mailto:Clare.Talbot@uk.ngrid.com">Clare.Talbot@uk.ngrid.com</a>
<b>Attachments (Yes/No):</b> <b>If Yes, Title and No. of pages of each Attachment:</b>  <b>ANNEX 1 – Proposed Legal Text</b> <b>ANNEX 2 – Proposed Register</b>	

**Notes:**

- Those wishing to propose an Amendment to the CUSC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 8.15 of the CUSC. The form seeks to ascertain details about the Amendment Proposal so that the Amendments Panel can determine more clearly whether the proposal should be considered by a Working Group or go straight to wider National Grid Consultation.
- The Panel Secretary will check that the form has been completed, in accordance with the requirements of the CUSC, prior to submitting it to the Panel. If the Panel Secretary accepts the Amendment Proposal form as complete, then he will write back to the Proposer informing him of the reference number for the Amendment Proposal and the date on which the Proposal will be considered by the Panel. If, in the opinion of the Panel Secretary, the form fails to provide the

information required in the CUSC, then he may reject the Proposal. The Panel Secretary will inform the Proposer of the rejection and report the matter to the Panel at their next meeting. The Panel can reverse the Panel Secretary's decision and if this happens the Panel Secretary will inform the Proposer.

The completed form should be returned to:

Beverley Viney  
Panel Secretary  
Commercial Frameworks  
National Grid  
National Grid House  
Warwick Technology Park  
Gallows Hill  
Warwick  
CV34 6DA

Or via e-mail to: [Beverley.Viney@uk.ngrid.com](mailto:Beverley.Viney@uk.ngrid.com)

(Participants submitting this form by email will need to send a statement to the effect that the proposer acknowledges that on acceptance of the proposal for consideration by the Amendments Panel, a proposer which is not a CUSC Party shall grant a licence in accordance with Paragraph 8.15.7 of the CUSC. A Proposer that is a CUSC Party shall be deemed to have granted this Licence).

3. Applicable CUSC Objectives\*\* - These are defined within the National Grid Company Transmission Licence under Section C7F, paragraph 15. Reference should be made to this section when considering a proposed amendment.
