Pending action with Energy UK to provide firm date.</p> <p><u>Matthew Deitz: Energy UK: Email forwarded to Panel on 23 April 2020</u></p> <p>Happy to provide a presentation, however, this really is BEIS's report, so I'll have to talk to them about how it is presented. Obviously, the lessons learnt was our action which we completed as a member of the E3C.</p> <p>Busy with Covid-19 issues which the Panel can appreciate.</p>	February 2020	Open

314	February 2020	7635	Code Administrator	Code Administrator to send questions and comments received to Energy UK and request presentation at March 2020 Panel. Clarity to be sought on whether this would be as Energy UK or Energy UK on behalf of the E3C Committee	<p><u><a href="#">Matthew Deitz: Energy UK: Email forwarded to Panel on 23 April 2020</a></u></p> <p>In regards to Guy's questions, I think the questions are actually focussed on the wider report, rather than the lessons learnt for generators. The data in question I believe was actually provided to E3C by the ESO, so I'll have to revert that to you/the ESO rep.</p> <p>Also, the questions in regards to Hornsea-1 is for Orsted. Orsted I know are still investigating and will be prepared to share further lessons learnt in due course.</p> <p>These were merely preliminary, so that the generation community understood the issues by the impacted generators. I expect further information to be forthcoming from the Power Disruption Implementation Group.</p>	May 2020	Open
