Agenda

Grid Code Development Forum

Date:	05ᵗʰ August 2020	Location:	Digital only meeting via WebEx Please register below to receive the details to join: **WebEx Registration Link**
Start:	10:00	End:	11:00

Agenda for Grid Code Development Forum (GCDF) (10:00 – 11:00)

#	Topics to be discussed	Owner	Approx. Timings
1.	Introductions	Code Governance	10:00 – 10:10
2.	Presentation: GC0147 Update - Last resort disconnection of Embedded Generation – enduring solution	Rob Wilson, NG ESO	10:10 – 10:50
3.	AOB	All	10:50 – 11:00
4.	Close	Code Governance	11:00

GC0147 Update - Last resort disconnection of Embedded Generation – enduring solution, Rob Wilson, NG ESO

This modification was proposed by Rob Wilson on 14 July 2020 and it seeks to clarify the enduring arrangements for emergency instructions that the ESO can issue to Distribution Network Operators (DNOs) to disconnect embedded generators, as a last resort in an emergency situation and after having exhausted all other commercially available options.

It is required to replace the temporary solution which was implemented on 7 May 2020 via Grid Code modification GC0143, and which expires on 25 October 2020. That modification was treated as urgent due to the unprecedented societal changes brought about by the COVID-19 pandemic which had led to demands out-turning up to 20% lower than predicted, increasing the need for the ESO to have access to an unambiguous last resort action to use in an emergency.

Rob Wilson will be providing an update on this modification following the July 2020 Grid Code Review Panel.
