

SQSS Panel Headline Report – 21 October 2020

Meeting name Security and Quality of Supply Standards Panel

The NETS SQSS Review Panel Headline Report is produced after every NETS SQSS Review Panel and aims to provide an overview of the key discussion points.

Panel Asks for SQSS modification

GSR026 'Adding Non-Standard Voltages to the SQSS'

- Ofgem identified an error in the Final Modification Report that was submitted to them and the Panel was asked to agree to a typographical amendment to the Final Modification Report to allow resubmission to Ofgem.
 - The Panel unanimously agreed that the amendment to the GSR026 Final Modification Report was typographical, and it accurately reflected the discussions held in the September Panel Meeting.
-

SQSS modification Workgroup Report

GSR027 'Review of the NETS SQSS Criteria for Frequency Control that drive reserve, response and inertia holding on the GB electricity system'

- The Workgroup Report for GSR027 was presented to the Panel, and the Panel was asked to agree that Workgroup had met its Terms of Reference to enable the Modification to proceed to Code Administrator Consultation.
 - The Panel agreed that the workgroup had fulfilled its Terms of Reference (which were to consider and report on a number of issues), and that this could therefore proceed. There was some discussion by Panel members with regards to the next steps, governance, and the general principle of finding the optimum balance for consumers between risk mitigation and cost.
-

Date of the next meeting

The next SQSS Panel meeting will be held on **Wednesday 18 November 2020**.

Questions or feedback?

Panel Chair: Rob Pears, Code Administrator

Panel Secretary: Jennie Groome, Code Administrator
