5. STC/STCP Modification Proposals for Panel Decision

CM075 – ‘Clarification on TO Final Sums Definition’

5189. RWO shared with the Panel members what has been changed since the CM075 modification was presented in draft to November Panel, and talked through the updated legal text.

5190. RWO advised the Panel that the modification is an editorial change only and does not have any consequences on any other Frameworks.

5191. RWO stated that there do not seem to be any issues regarding the interpretation, and it does not impact customers.

5192. The Panel were satisfied with what the modification is set to achieve.

5193. The Panel agreed with the proposer’s recommendation of the Governance Route. The modification will follow a Self-Governance route and proceed straight to Code Administrator Consultation. The Panel agreed to a 15 working day Consultation, opening on Monday 21 December 2020.

STC/STCP Modification Proposals for Panel Discussion

6. Update - CM072 “STC changes in the event the UK leaves the EU without an agreement”

5194. JG provided an update on the CM072 modification, advising the Panel that if the UK government has not achieved a Brexit Deal by the end of 2020, Panel members will carry out the determination vote on CM072 at the Special Panel on 6 January 2021.

5195. JG confirmed that no Code Administrator Consultations responses had been received for CM072.
5196. If a Brexit Deal is achieved, ESO will be raising a new modification and withdrawing CM072.
5197. JG presented the possible governance routes for the new modification, with an indication of timescales for each route.
5198. JG advised the Panel that in view of the unknown outcome of Brexit, the Panel papers cannot be issued until first working day in January 2021. If the Special Panel is required, the papers will be issued on the 4 January 2021 for the Special STC Panel on 6 January 2021.

8. Reports from Sub-Committees

Joint Planning Committee – JPC

5204. NBR advised the Panel there were no further updates. The next meeting for the Joint Planning Committee is planned for the 28 January 2021.

Network Access Policy Workgroup – NAP

5205. MD advised the Panel that a meeting was held on 1 December 2020 between ESO, Ofgem and the 3 TOs, focusing on the start of RIIO 2T and the outage impact that has.
5206. MD explained that the period ahead looked very busy from the Network Access point of view, given all the work that is being planned by the TOs for over the next five-year period.
5207. MD told the Panel that there were twelve KPIs developed, associated with outage planning. Discussions have centred around data collation process to ensure all 3 TOs

collate the data in the same format so that prudent metrics can be achieved at the end of the regulatory year.

5208. MD informed the Panel that meetings for 2021 were in the process of being set up and are looking to be held in March, June, September and December.

Transmission Charging Review Group - TCRG

5209. RWO advised the Panel that there could soon be a modification on charge setting process improvements. Some work has already been undertaken to rationalise the number and type of application fees for charge setting for 2021. There have been conversations regarding RPI and CPI and the Final Determinations have provided some clarity on indexation methods with talks continuing on charge settings.

5210. RWO highlighted that contract management/commercial principles for agreements for Pathfinder or other ESO products where the TO has investment risks requires some improvement also.

5211. RWO informed the Panel that the next meeting will be held in March 2021.
