TNUoS Tariff Forecast Timetable for 2022/23 Tariffs Update

Dear Industry Colleagues,

This letter concerns the timetable for our forecasts of 2022/23 electricity Transmission Network Use of System (TNUoS) tariffs over the coming year.

We have reviewed the timetable of the TNUoS Tariff Forecast timetable for 2022/23. In light of the ongoing CMA appeal¹, having discussed with industry stakeholders, we have made the decision to postpone the publication of for the Five Year View of 2022/23 to 2026/27 TNUoS tariffs and initial view of 2022/23 TNUoS tariffs until the CMA appeal decision is confirmed.

Assuming the CMA decision is available in March, we would endeavour to publish the Five Year View of 2022/23 to 2026/27 TNUoS tariffs and initial view of 2022/23 TNUoS tariffs by the end of April, incorporating the outcome of the CMA appeal.

We have updated the timetable for 2022/23 tariff forecasts publications as below.

By end of April 2021 (Subject to CMA decision timescale)	Five Year view of 2022/23 to 2026/27 TNUoS tariffs (including the initial forecast of 2022/23 TNUoS tariffs)
By end of August 2021	Updated forecast of 2022/23 TNUoS tariffs
By end of November 2021	Draft 2022/23 TNUoS tariffs
31 January 2022	Final 2022/23 TNUoS tariffs

These dates may vary if unforeseen circumstances require but we will still aim to provide at least three forecasts before the Final tariffs are published in January 2022. All forecasts will be published on the TNUoS tariffs forecast section of our website: www.nationalgrideso.com/tnuos

¹ CMA Appeal – SSE code modifications appeal
<https://www.gov.uk/cma-cases/sse-code-modifications-appeal>

We will continue to engage with you on the analysis that we can provide in our forecasts via the Transmission Charging Methodology Forum (TCMF).

If you have any queries, please contact us at TNUoS.Queries@nationalgrideso.com.

Yours faithfully

Rebecca Yang
