

## STC Panel Headline Report – 24 February 2021

### Meeting name System Operator Transmission Owner Code Panel

The STC Panel Headline Report will be produced after every STC Panel and aims to provide an overview of the key decisions made. Minutes and an action log for this meeting will be published separately.

### Approval of January Minutes

Panel Members approved the minutes from the January Panel meeting, which can be found on the National Grid ESO website via the following link:

### Code Administrator Update

---

#### **ESO Code Administrator Survey 2020**

Kirsten Shilling from the Code Administrator team shared a recent improvement in stakeholder satisfaction feedback. More information on this can be found in this [summary document](#).

---

### Draft Modifications

---

#### **TNUoS Cashflow Risk Transfer STCP Change**

Matt Baller from the ESO presented the draft modification, which is planned to be raised formally in March.

On 9 July 2020, an Ofgem decision concluded that the TNUoS collection cashflow timing risk should be reallocated from NGENSO to onshore TOs. This is because the difference between allowed and collected revenues can be more material in relation to the size of NGENSO contrasted with the onshore TOs. The key change is that NGENSO will now pay onshore TOs only when monthly TNUoS invoices have been issued.
