Introductions & Apologies for absence

- **Apologies**
 - None
- **Alternates**
 - None
- **Presenters**
 - None
- **Observers**
 - Paul Smillie

Approval of Panel Minutes

Approval of Panel Minutes from the
Meeting held 24 February 2021

Actions Log

Review of the actions log

Authority Decisions

Decisions Received since last Panel meeting

None

Decisions Pending

None

Other

New modifications submitted

- PM0118: Inclusion of NGET as an applicable TO entity within STCP11-4

Draft modifications to be discussed

DRAFT

- TNUoS Revenue Risk Transfer (STCP change)
- STCP changes to reflect the terms of the UK's departure from the EU

STC Panel Updates

- ESO

CMP328 (Connections Triggering Distribution Impact Assessment) Follow-on

- WG consultation just closed; ESO response issued
- Original Proposal would require multiple changes to [likely] core STC & STCPs
 - Changes to facilitate ESO requests of TO data items for the new process
 - Challenges associated with Interactivity (TO/DNO solutions) whereby revisions to design could occur
 - Reviewing connections process (making offers conditional on DIA, processes/timescales to update TOCOs once DIA received, revise TOCO to reflect DIA etc)
- We have proposed an Alternative which tweaks the existing Third Party Works process
 - Much lighter touch on changes

STC Next Steps

- Pending outcome of next WG discussion (further to WG consultation responses)
 - Date TBC
- Can then start fleshing out an STC proposal draft to bring for discussion Apr/May

CMP330 (Allowing new transmission connectees to build connection assets >2km in length) Follow-on

- Exploring STC changes required currently
- Potentially just STCP18-1 (Connection & Modification Application)
- Doesn't need to be too prescriptive for STC – most detail will be in TOCO and Construction Application docs; STC more about the principles
- Draft to be presented in the next couple of months but again subject to direction of travel (Proposer has crafted an alternative)
- STC would need implementation by 1 September (as CUSC would be from 1 April 2022)

CMP298 (Updating Statement of Works process to facilitate aggregated assessment of relevant and collectively relevant embedded generation)

- Going out to WG consultation soon then WG report to June CUSC Panel
- CUSC implementation date TBD e.g. consideration of transitional period for DNOs to update processes/training
- STC likely needs:
 - Amendments to Section D (core STC)
 - A new schedule
 - A new STCP
- A working group is to be set up consisting of ESO and TOs to discuss
 - We can do this in the coming weeks then start fleshing out the changes

Brexit Mod

- Bringing new draft to April's Panel
- Nothing much changed (except narrative)
- Uncertainty around TCA means we'll make these changes now unless/until required otherwise

Minor Template Change – STCP24-1

- Change being made to Appendix B (revenue forecast template)
- Changes Maximum Allowable Revenue calculation due to RII0-2 licence changes
- Formalising BAU; just wasn't time for FY21/22
- Will be baked into TNUoS revenue risk transfer mod (June Panel)

TNUoS Cashflow Risk Transfer STCP Change

nationalgridESO

Potential Future Modifications and impacts of other modifications

Modifications Tracker – Jennifer Groome

European Network Code Impacts – Rob Wilson

Authority Update (SCR/TCR/Energy Codes Review) – Jonathan Coe

Reports from Sub-Committees

Joint Planning Committee (JPC) – Nicola Bruce

- **27 April 2021**

Network Access Policy Workgroup (NAP) – Milorad Dobrijevic

- **March 2021**

Transmission Charging Review Group (TCRG) – Richard Woodward

- **24 March 2021**

Code Administrator Update

No update

The background features several abstract, flowing yellow lines. In the top left, there are several curved lines that sweep upwards and to the right. In the bottom left, there are more curved lines that sweep downwards and to the right. On the right side, there are three parallel diagonal lines sloping upwards from left to right. At the bottom, there are horizontal lines that transition into a curved shape on the right side.

AOB

Date of next meeting

Wednesday 28 April 2021

Modification Submission date – 13 April 2021

Panel Papers Day – 20 April 2021
