

STC Panel Headline Report – 31 March 2021

Meeting name System Operator Transmission Owner Code Panel

The STC Panel Headline Report will be produced after every STC Panel and aims to provide an overview of the key decisions made. Minutes and an action log for this meeting will be published separately.

Approval of February Minutes

Panel Members approved the minutes from the February Panel meeting, which can be found on the National Grid ESO website via the following link:

New modifications

PM0118: Inclusion of NGET as an applicable TO entity within STCP11-4

STCP11-4 is not currently drafted to include a legally separate NGET Onshore Transmission Owner (TO) to provide Enhanced Services to NGESO (as the other Onshore TOs do).

This modification is a minor change to include NGET as one of the TO entities in scope for the procedure.

The Panel unanimously agreed that the modification be implemented on 1 April 2021.

Date of the next meeting

The next STC Panel meeting will be held on **Wednesday 28 April 2021**.
