## **Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation**

Dear Industry and Colleagues,

The GB Commercial Arrangements relating to Interconnector Capacity Calculation methodology outlines the commercial arrangements for payments relating to interconnector (hereinafter “IC”) capacity restrictions resulting from Net Transfer Capacity (hereinafter “NTC”) limits set by NGEN.

This letter confirms the commercial arrangements set out in the document titled “Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation”. This consultation focuses on this commercial compensation methodology only and NGEN are welcoming the views of the market and stakeholders.

The suite of documents that make up this consultation are:

1. Consultation Covering Letter;
2. NTC Commercial Compensation Methodology Consultation Cover Note;
3. Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation; and
4. Consultation Response Proforma.

NGEN are asking for your views on the Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation.

Please review the documentation and provide your responses using the Consultation Response Proforma. The consultation shall close on the 2<sup>nd</sup> June 2021, at 5pm. Your response should be sent to: [box.europeancodes.electricity@nationalgrideso.com](mailto:box.europeancodes.electricity@nationalgrideso.com).

Yours Sincerely,

**John Twomey**
