Under CMP330 no delay fee could be incurred/charged by the TO until it has adopted the asset. Any subsequent delays by User 2 for e.g. would presumably incur a delay charge on part of the TO and would be passed on under CMP288/289.	NW/GN/Co de Admin	WG 8	Open
5.	15.04.21	Discuss, whether they need an additional step within the scenarios to allow the TO, to take direct control of construction if there is a delay to facilitate user 2. Or if they just need to emphasise it is not always going to be a clean break/change of contractual responsibilities at a set point.	NW/GN	WG 8	Open
