

# EBGL Article 18 Proposal - Summary of changes

Detailed below is a summary of the key changes made to the consultation documents.

## Dynamic Containment - Document Update Summary of Principal Changes

### Auction Rules

Paragraph Number	Subject Matter	Change
9.1	Timing of publication by NGESO of Daily Auction Report	Reference to timings set out in Guidance Document, to ensure alignment
12.1.5	Exceptional Circumstances causing disruption to Auction	Insertion of new 12.1.5, to permit NGESO to take any other reasonable actions or steps not listed

### Service Terms

Paragraph Number	Subject Matter	Change
15.2	Operational Data	Explicit recognition that NGESO may initially be unable to receive State of Energy data as operational data
15.4	DC Performance Data	Inclusion of Response Unit capacity  Deletion of description of Performance Baseline (which now appears in Glossary)
Schedule 1	Service parameters	Inclusion of headings for ease of reference, insertion of new term "Maximum ramp rate for Baselines" and deletion of two terms "Min ramp rate for Response delivery (MW)" and "Max ramp rate for Response delivery (MW)"
Schedule 2	Availability Payments	Adjustments to the formulae in the calculation of factor K (which applies to the relevant Contracted EFA Block) as follows: <ul style="list-style-type: none"> <li>- <b>Lag lower bound removed</b> so that providers don't need to introduce a delay anymore (benefit to providers)</li> <li>- <b>Ramp rate upper bound removed</b> so that providers don't need to slow down when ramping (benefit to providers)</li> <li>- <b>Performance bounds changed in line with first two changes</b></li> <li>- <b>Asymmetric performance bounds changed to be a single curve with ramp rate that changes depending on where the curve is</b>, which makes more sense for those designing control systems (benefit to providers)</li> </ul>

## Glossary

Reference	Defined Term	Change
Part 3	Active Power	Reference to “calculation” as an alternative to measurement to future proof
Part 3	Non-Working Day	Deleted as not used
Part 3	Working Day	Deleted as not used
Part 4	Auction Closing Time	Changed from 10:00 hours D-1 to 14.30 hours D-1
Part 4	Auction Results Time	Changed from 10:30 hours D-1 to 15.00 hours D-1
Part 4	Maximum Ramp Rate	“per minute” added to correct reference to what is a rate
Part 4	Performance Baseline	Definition inserted from paragraph 15.4 Service Terms

## Participation Guidance Document

Reference	Subject Matter	Change
1	Service Overview	General update to provide additional clarity on service definition
2	Service Delivery	Minor clarification and simplification
3	Registration	Updated table ref Forms A/B/C to correct reference to tender submission
4	Daily Auctions	Timings updated to reflect changes to Auction Closing Time and Auction Results, and timing of publication of Daily Auction Report changed from 14:30 to 16:30
6	Settlement	Extraneous text deleted
8	Operational and Performance Baselines	New section added to provide additional clarification on distinction between operational and performance baselines
11	Balancing Mechanism Interaction (previously numbered 10)	Text removed and cross reference made to separate NGESO document “Unlocking Stacking of BOAs in DC”
14	Capacity Market (previously numbered 13)	Future proofing to acknowledge future direction by Ofgem/BEIS as to treatment of DC in capacity market rules
