

CMP215 and CMP216

CUSC Panel – 25 January 2013
Jenny Doherty

Two modifications raised

- Two modifications raised:
 - CMP215 - Removal of references to TNUoS charges for Interconnector BM Units and requirement to provide Security Cover for BSUoS
 - CMP216 - Removal of references to BSUoS charges for Interconnector BM Units
- Modifications are not dependent upon each other
- They address similar issues but have different proposed implementation dates
- Recommended to follow Self-governance

CMP215 Defect

- GB ECM-26 removed the requirement for Interconnectors to pay TNUoS charges
- Section 9 of the CUSC has not been revised since the implementation of GB ECM-26
- Interconnector Users and Error Administrators are no longer obligated to have an Approved Credit Rating or provide Security Cover following the implementation of CMP202 which removed BSUoS charges for Interconnectors
- Exhibit F 'Use of System Application' and Exhibit H 'Use of System Interconnector Offer and Confirmation Notice' still request an Approved Credit Rating or Security Cover

CMP215 Solution

- Deletion of 9.10 – Use of System Charges – Transmission Network Use of System Charges
- Removal of references to TNUoS in;
 - 9.22.3
 - 9.22.4
- Deletion of references to Security Cover and Credit Rating for Interconnector Users and Error Administrators in;
 - Exhibit F - The Connection and Use of System Code Use of System Application
 - Exhibit H - Use of System Interconnector Offer and Confirmation Notice
- Amendments to references in Section 11

CMP216 Defect

- Section 9 has not been revised following the implementation of CMP202 'Revised treatment of BSUoS charges for lead parties of Interconnector BM Units' and therefore still references BSUoS charges
- References to BSUoS charges cannot be removed until Final Reconciliation is complete (date to be confirmed by ELEXON). Until this point, BSUoS obligations are still valid for Users paying BSUoS charges prior to the implementation of CMP202

CMP216 Solution

- Following final reconciliation for BSUoS charges;
 - Removal of references to BSUoS in 9.19
 - Deletion of 9.22 – Use of system charges – Balancing Services Use of System Charges
 - Deletion of paragraphs
 - 9.22.3
 - 9.23.4

Justification against Applicable CUSC Objectives CMP215

- *(a) the efficient discharge by The Company of the obligations imposed upon it by the Act and the Transmission Licence*
- *This modification will better facilitate Applicable Objective (a) as CMP215 will update the CUSC following the implementation of CMP202 and GB ECM-26 which will provide clarity for CUSC parties.*

Justification against Applicable CUSC Objectives CMP216

- *(a) the efficient discharge by The Company of the obligations imposed upon it by the Act and the Transmission Licence*
- *This modification will better facilitate Applicable Objective (a) as CMP216 will update the CUSC following the implementation of CMP202 which will provide clarity and visibility for CUSC parties.*
