

CMP225 Consequential changes following implementation of the Third Package and other miscellaneous changes.

CUSC Panel – 29 November 2013
Emma Radley – National Grid

Background

- Statutory Instrument came into effect in November 2011
- As a result, a number of changes were made to the Licences.
- 2 main changes
 - Introduction of a new Relevant Objective
 - Allowing the Authority to raise modifications which it considers necessary to comply with or implement the Regulations or any relevant decisions of the Agency.
- New Objective added to CUSC Proposal Form
- Other changes put on hold whilst Ofgem consulted on the licence wording.

Summary of defect

- Currently the CUSC does not allow for the Authority to raise proposals in order to comply with the relevant European legislation.
- Therefore, the CUSC is currently not consistent with the licence.

Proposed CUSC Modification

- Enable the Authority to raise modifications to comply with relevant European Regulation.
- Apply the caveats in the licence to modifications raised by the licensee following an Authority direction.
- Apply the caveats to modifications which are raised by the Authority in relation to European legislation.
- Changes will be required to Section 8 of the CUSC.
- Like-for-like proposal submitted to the BSC Panel for consideration (P298).

Justification against Applicable CUSC Objectives

- The changes will accurately reflect the provisions set out in the Licence covering the circumstances and process to be followed in relation to Authority raised/directed modifications.
- CMP225 is resulting from the Third Package legislation and complies with the changes resulting from the Statutory Instrument.

Code Administrator Proposed Progression

- The Panel is asked to agree:
 - whether CMP225 should be progressed through Self-Governance
 - how to progress CMP225
 - Workgroup
 - Code Administrator Consultation
 - whether CMP225 is exempt from the ongoing SCR

Proposed Timetable

29 November 2013	Proposal presented to CUSC Panel
W/C 2 December 2013	Send out draft TOR and WG nominations for 1 week
W/C 8 December 2013	Deadline for comments/nominations
