

CMP219 – CMP192 Post Implementation Clarifications

CUSC Modifications Panel 29 November 2013
Emma Radley – Code Administrator

Background

- CMP192 introduced enduring user commitment arrangements for generators into the CUSC
- New arrangements went live from 1st April 2013
- However, implementation of CMP192 highlighted that the legal text requires updating to remove redundant text and provide further clarity.

Solution

- Addresses issues including:
 - Typographical errors
 - Numbering inconsistencies
 - Redundant text – Transitional arrangements
 - Additional detail required to remove ambiguity
 - Unintended omissions – non generation users
- Proposal raised in May 2013
- 3 Workgroup meetings held

Workgroup Consultation

- 3 responses received
 - All generally supportive of CMP219
 - Suggested additional clarifications
 - 1 response – highlighted the issues with security arrangements for DNO connected generation
- No Workgroup Consultation Alternative Requests received.

Workgroup Vote

- 5 Workgroup members voted
- 1 Workgroup member wasn't able to attend
- All the members unanimously voted in support of CMP219
 - No WACMs were raised

Code Administrator Consultation

- 3 responses received.
- All supportive of CMP219.
- One respondent felt that there were still some further points that could be taken forward through another CUSC Modification Proposal.
- All supportive of the implementation approach.

National Grid Opinion

- Improves clarity and facilitates better industry understanding
- Clarifies the treatment of Users and removes the scope for discrimination
