Network Code	What is it about?	<u>Status</u>	Status Update	Milestones to Completion
Connection Codes				
Requirements for	Sets functional requirements which new generators	Comitology	Updated RfG draft text was released by the	Following the release of the 21 January 2015
Generators	connecting to the network (both distribution and	preparations &	Commission to Member states on 21 January	text, discussions by the Cross-Border Committee
	transmission) will need to meet, as well as responsibilities	Informal	2015. This is ahead of the Cross-Border	are expected to commence on 4 February 2015.
	on TSOs and DSOs .	discussions	Committee.	
Demand Connection Code	Sets functional requirements for new demand users and	Comitology	Draft text was released by the Commission in	Discussions by the Cross-Border Committee are
1	distribution network connections to the transmission	preparations &	March 2014 ahead of the Cross-Border	expected to commence after RfG and possibly
	system, basic Demand Side Response capabilities, as well		Committee. Further preparation is believed to be	FCA.
	as responsibilities on TSOs and DSOs.	discussions	ongoing.	
			99-	
HVDC Network Code	Sets functional requirements for HVDC connections and	Comitology	With the European Commission ahead of	ENC with Commission for preparations for
İ	offshore DC connected generation.	preparations &	Comitology.	Comitology.
	3	Informal	3,	3,
		discussions		
Market Codes				
Capacity Allocation and	Creates the rules for operating pan-European Day Ahead	Comitology	Following formal voting at the Cross-Border	Subject to approval by the European Parliament
Congestion Management	and Intraday markets, explains how capacity is calculated	preparations &	Committee, CACM was adopted by Member	and Council, CACM is expected to be adopted by
Guideline	and explains how bidding zones will be defined. Includes	Informal	States in Comitology on 5 December 2014.	Member States in Q2 2015.
	the Governance Guidelines which provide a robust, reliable	discussions	CACM will now be passed through to the	
	and non-discriminatory European Union governance		European Parliament and Council for further	
	framework for the operation of market coupling across		scrutiny.	
	Europe.		,	
Forward Capacity Allocation	Sets out rules for buying capacity in timescales before Day	Comitology	With the European Commission ahead of	ENC with Commission for preparations for
	Ahead and for hedging risks.	preparations &	Comitology.	Comitology.
		Informal		
		discussions		
Electricity Balancing	Sets out the rules to allow TSOs to balance the system	ACER review of	ACER is reviewing the ENC following ENTSO-E	ACER recommendation due followed by
,	close to real time and to allow parties to participate in those	ENTSO-E revision.	Revisions.	Comitology preparations.
	markets.			
System Operation Codes				
Operational Security	Sets common rules for ensuring the operational security of	ENTSO-E	At the Florence Forum, the Commission indicated	
	the pan European power system.	preparing redrafting	that further drafting is likely to be required to allow	through Comitology.
		on Commission's	the Network Code to enter in to force as a	
		request	'Network Code'.	
	5 1: 1 700 % 1 1%	ENITOO E		5 16:
Operational Planning and	Explains how TSOs will work with generators to plan the	ENTSO-E	At the Florence Forum, the Commission indicated	0 1 0
Scheduling	transmission system in everything from the year ahead to	preparing redrafting	that further drafting is likely to be required to allow	through Comitology.
	real time.	on Commission's	the Network Code to enter in to force as a	
		request	'Network Code'.	
Load Fraguency Control and	Provides for the coordination and technical specification of	ENTSO-E	At the Florence Forum, the Commission indicated	Po drofting required about of progression
Reserves	load frequency control processes and specifies the levels	preparing redrafting	that further drafting is likely to be required to allow	
Reserves	of reserves (back-up) which TSOs need to hold and	on Commission's	the Network Code to enter in to force as a	it flought Cornitology.
	specifies where they need to be held.	request	'Network Code'.	
	specifies where they fleed to be field.	request	Network Code.	
Emergency and Restoration	Ensures that efforts of restoration after a major disturbance	ENTSO-E Drafting	ENTSO-E has released a revised draft of the	Anticipated further stakeholder engagement on
Emergency and residiation	or blackout are well coordinated at led by TSOs within a	Livioo-L Diaming	ENC which has taken into consideration the	the updated text and expect final draft of the ENC
	synchronous areas, and no individual action or attempts	1	stakeholder views on the previous version.	will be delivered to ACER for review in April 2015.
	adversely affect the re-establishment of system operation	1	Stakeholder engagement on this new draft is due	will be delivered to AOLIN for review in April 2015.
	as soon as possible	1	to progress in February.	
	ao ocorr ao possibio		to progress in rebitary.	
Transparency Regulation		1		
Transparency Regulation	Establishes a minimum common set of data relating to	GB Implementation	ENTSO-E has finalised the central Electricity	GB Compliance met in January 2015 and
-	generation, balancing, transmission and consumption of	1	Market Fundamental Information Platform	'ENTSO-E Transparency Platform' now live.
	electricity which need to be made available to market	1	(EMFIP) platform for transparency data and on 5	
	participants. It also provides for a central collection and		January 2015 they launched the 'ENTSO-E	
	publication of the data.		Transparency Platform'.
