

Workgroup Terms of Reference and Membership

CMP328: Connections Triggering Distribution Impact Assessment

Responsibilities

1. The Workgroup is responsible for assisting the CUSC Modification Panel in the evaluation of CMP328 raised by Scottish and Southern Energy Power Distribution Limited at the Modifications Panel meeting on 13 December 2019. The proposal must be evaluated to consider whether it better facilitates achievement of the Applicable CUSC Objectives.

Applicable CUSC (non-charging) Objectives

- a) The efficient discharge by the Licensee of the obligations imposed on it by the Act and the Transmission Licence;
- b) Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;
- c) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency *; and
- d) Promoting efficiency in the implementation and administration of the CUSC arrangements.

*Objective (c) refers specifically to European Regulation 2009/714/EC. Reference to the Agency is to the Agency for the Cooperation of Energy Regulators (ACER).

2. It should be noted that additional provisions apply where it is proposed to modify the CUSC Modification provisions, and generally reference should be made to the Transmission Licence for the full definition of the term.

Scope of work

3. The Workgroup must consider the issues raised by the Modification Proposal and consider if the proposal identified better facilitates achievement of the Applicable CUSC Objectives.
4. In addition, the Workgroup shall consider and report on the following specific issues:

Workgroup Term of Reference	Location in Workgroup Report
a) Consider EBGL implications	None – see “Interactions” section
b) Evaluate the suitability of how impacts of transmission connections to distribution networks are assessed currently to identify perceived gaps and improvements, in order to	“Workgroup Discussion on Proposer’s Solution” section – various discussion on the pros and cons of the

define a comprehensive repeatable and consistent methodology	Distribution Impact Assessment and Third Party Works
c) Develop the proposed arrangements for a Distribution(al) Impact Assessment type process for connecting the new user; consider existing requirements of other directly connected users inclusive of scope, roles and responsibilities and compliance processes.	“Workgroup Discussion on Proposer’s Solution” section
d) Consider how the TSO and relevant network operator will ensure they coordinate and agree the connection requirements with the generation, storage or demand user.	“Workgroup Discussion on Proposer’s Solution” section
e) Consider if the constraint payment arrangements in the CUSC need to be updated.	“Workgroup Discussion on Proposer’s Solution” section – “Clean Energy Package (CEP) / Compensation Arrangements”
f) Consider if the substantial modification requirements e.g. RFG, DCC etc. will apply to the DSO or the existing generation or demand User in terms of seeking to amend their respective connection agreements.	“Workgroup Discussion on Proposer’s Solution”
g) Consider cross-code impacts, notably on STC.	“Interactions” section
h) Consideration of the interaction and impacts of changes in distributed generation/storage/demand on one distribution system upon another distribution system on generation/storage/demand connected to its system.	“Workgroup Discussion on Proposer’s Solution” section

5. The Workgroup is responsible for the formulation and evaluation of any Workgroup Alternative CUSC Modifications (WACMs) arising from Group discussions which would, as compared with the Modification Proposal or the current version of the CUSC, better facilitate achieving the Applicable CUSC Objectives in relation to the issue or defect identified.
6. The Workgroup should become conversant with the definition of Workgroup Alternative CUSC Modification which appears in Section 11 (Interpretation and Definitions) of the CUSC. The definition entitles the Group and/or an individual member of the Workgroup to put forward a WACM if the member(s) genuinely believes the WACM would better facilitate the achievement of the Applicable CUSC Objectives, as compared with the Modification Proposal or the current version of the CUSC. The extent of the support for the Modification Proposal or any WACM arising from the Workgroup’s discussions should be clearly described in the final Workgroup Report to the CUSC Modifications Panel.

7. Workgroup members should be mindful of efficiency and propose the fewest number of WACMs possible.
8. All proposed WACMs should include the Proposer(s)'s details within the final Workgroup report, for the avoidance of doubt this includes WACMs which are proposed by the entire Workgroup or subset of members.
9. There is an obligation on the Workgroup to undertake a period of Consultation in accordance with CUSC 8.20. The Workgroup Consultation period shall be for a period of 15 working days as determined by the Modifications Panel.
10. Following the Consultation period, the Workgroup is required to consider all responses including any WG Consultation Alternative Requests. In undertaking an assessment of any WG Consultation Alternative Request, the Workgroup should consider whether it better facilitates the Applicable CUSC Objectives than the current version of the CUSC.

As appropriate, the Workgroup will be required to undertake any further analysis and update the original Modification Proposal and/or WACMs. All responses including any WG Consultation Alternative Requests shall be included within the final report including a summary of the Workgroup's deliberations and conclusions. The report should make it clear where and why the Workgroup chairman has exercised his right under the CUSC to progress a WG Consultation Alternative Request or a WACM against the majority views of Workgroup members. It should also be explicitly stated where, under these circumstances, the Workgroup chairman is employed by the same organisation who submitted the WG Consultation Alternative Request.

11. The Workgroup is to submit its final report to the Modifications Panel Secretary on **16 September 2021** for circulation to Panel Members. The final report conclusions will be presented to the CUSC Modifications Panel meeting on **24 September 2021**

Membership

12. It is recommended that the Workgroup has the following members:

Role	Name	Representing
Chair	Paul Mullen	Code Administrator
Technical Secretary	Kavita Patel	Code Administrator
Proposer	Joanna Knight	SSE Power Distribution Limited

Proposer (Alternate)	Susie Laing or Gwen MacIntyre	SSE Power Distribution Limited
Workgroup Member	Grahame Neale	National Grid ESO
Workgroup Member (Alternate)	Matthew Bent	National Grid ESO
Workgroup Member	Michael Clark	EDF Energy
Workgroup Member (Alternate)	Paul Mott	EDF Energy
Workgroup Member	Robert Longden	Cornwall Insight
Workgroup Member	Malcolm Bebbington	SP Manweb
Workgroup Member (Alternate)	Wendy Mantle	SP Manweb
Workgroup Member	Charles Deacon	Renewable Connections Developments Limited
Workgroup Member	Paul Andrews	Western Power Distribution
Workgroup Member	Garth Graham	SSE Generation Ltd.
Workgroup Member (Alternate)	Andrew Colley	SSE Generation Ltd.
Workgroup Member	Matthew Paige-Stimson	NGET
Workgroup Member (Alternate)	Richard.Woodward	NGET
Workgroup Member	Jack Scoffham	Northern Powergrid
Workgroup Member (Alternate)	Simon Jesson or Mark Callum	Northern Powergrid
Workgroup Member	Gillian Wilamson	ENWL
Workgroup Member	Charles Cresswell	Cero Generation
Workgroup Member	Nuno Fonseca	UKPN
Workgroup Member (Alternate)	Veronique Martre	UKPN
Workgroup Member	Deborah MacPherson	SP Energy Networks

Authority Representative	Dafydd Burton (or David McCrone)	Ofgem
--------------------------	----------------------------------	-------

NB: A Workgroup must comprise at least 5 members (who may be Panel Members). The roles identified with an asterisk (*) in the table above contribute toward the required quorum, determined in accordance with paragraph 14 below.

13. The chairman of the Workgroup and the Modifications Panel Chairman must agree a number that will be quorum for each Workgroup meeting. The agreed figure for this modification is that at least 5 Workgroup members must participate in a meeting for quorum to be met.

14. A vote is to take place by all eligible Workgroup members on the Modification Proposal and each WACM. The vote shall be decided by simple majority of those present at the meeting at which the vote takes place (whether in person or by teleconference). The Workgroup chairman shall not have a vote, casting or otherwise. There may be up to three rounds of voting, as follows:

Vote 1: whether each proposal better facilitates the Applicable CUSC Objectives;
 Vote 2: where one or more WACMs exist, whether each WACM better facilitates the Applicable CUSC Objectives than the original Modification Proposal;
 Vote 3: which option is considered to BEST facilitate achievement of the Applicable CUSC Objectives.

For the avoidance of doubt, this vote should include the existing CUSC baseline as an option. The results from the vote and the reasons for such voting shall be recorded in the Workgroup report in as much detail as practicable.

15. It is expected that Workgroup members would only abstain from voting under limited circumstances, for example where a member feels that a proposal has been insufficiently developed. Where a member has such concerns, they should raise these with the Workgroup chairman at the earliest possible opportunity and certainly before the Workgroup vote takes place. Where abstention occurs, the reason should be recorded in the Workgroup report.
16. Workgroup members or their appointed alternate are required to attend a minimum of 50% of the Workgroup meetings to be eligible to participate in the Workgroup vote.
17. The Technical Secretary shall keep an Attendance Record for the Workgroup meetings and circulate the Attendance Record with the Action Notes after each meeting. This will be attached to the final Workgroup report.
18. The Workgroup membership can be amended from time to time by the CUSC Modifications Panel.
