

Code Administrator Meeting Summary

Meeting Name: CMP298 Workgroup 10

Date: 9 August 2021

Contact Details

Chair: Paul Mullen

Contact details: paul.j.mullen@nationalgrideso.com

Proposer: Grahame Neale

Contact details: grahame.neale@nationalgrideso.com

Key areas of discussion

- CMP298 seeks to introduce a more efficient aggregated assessment of Distributed Generators (DG) that have or may have an impact on the National Electricity Transmission System (NETS). This process (known in the industry as the Appendix G process) has been trialled by Network Operators over the last few years and the learning from this will be applied to the CMP298 change. This new process will sit alongside the current process (the Statement of Works process) with a small change being applied to this existing process to clarify that multiple projects can now be applied for at the same time.
- The Workgroup met to finalise the legal text and the content of the Workgroup Consultation (specifically further clarify at a high level on what is meant by the “Planning Limit” and “Materiality Trigger”).
- The Workgroup agreed the plan (see Next Steps) to get the Workgroup Consultation out to the industry on 12 August 2021.

Next Steps

Milestone	Who?	When by?
Updated Legal Text and Schedules sent to Workgroup	Grahame Neale	10 August 2021 by 12pm - Completed
Updated Workgroup Consultation sent to Workgroup	Paul Mullen	10 August 2021 by 12pm – Completed
Any final Showstopper comments on Legal Text, Schedules, and Workgroup Consultation	Workgroup	11 August 2021 by 5pm – Completed

Issue Workgroup Consultation to industry	Paul Mullen	12 August 2021 (9am) – Completed
-------------------------------------------------	-------------	-------------------------------------
