Respondent name:	Stephen Baker
Company name:	NGESO
Email address:	Stephen.Baker@nationalgrideso.com
Phone number:	07929724347

I wish my response to be:

(Please mark the relevant box)

 Non-Confidential Confidential

Note: A confidential response will be disclosed to the Authority in full but, unless agreed otherwise, will not be shared with the Panel or the industry and may therefore not influence the debate to the same extent as a non-confidential response.

For reference the Applicable Grid Code Objectives are:

- a) *To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity*
- b) *Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);*
- c) *Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole;*
- d) *To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and*
- e) *To promote efficiency in the implementation and administration of the Grid Code arrangements*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions		
1	Do you believe that the GC0152 Original Proposal better facilitates the Applicable Objectives?	<p><i>GC0152 is a very minor change to ensure that the Grid Code modification process is aligned with the requirements set out in the European Emergency and Restoration Code, which is an area of post-Brexit retained European Law. The impact is simply to require a minimum 1 month consultation for changes to areas of the code that fall within the mapped terms and conditions for System Defence and System Restoration Service Providers. No other obligations are changed by this.</i></p> <p><i>By complying with relevant legislation this change is positive against objective (d).</i></p>
2	Do you support the proposed implementation approach?	<i>Yes – this is a very minor change.</i>
3	Do you have any other comments?	<i>No</i>
