

**Table 1 - Consultation Papers - Current Status Report – 6<sup>th</sup> September 2007**

<b>Paper Ref.</b>	<b>Grid Code Change Reference</b>	<b>Current Status</b>	<b>Notes</b>
C/06	Control Telephony Electrical Standard	Approved	Authority approval received on 6 <sup>th</sup> September 2007, implemented on 17 <sup>th</sup> September 2007.
F/06	Control and System Telephony	Consultation Closed	Consultation closed on 17 <sup>th</sup> January 2007, 7 replies received.
G/06	Power Park Modules and Synchronous Generating Units	Consultation Closed	Consultation closed on 18 <sup>th</sup> January 2007, 16 replies received.
A/07	Management of No System Connection	Implemented	Authority approval received on 28 <sup>th</sup> June 2007, implemented on 16 <sup>th</sup> July 2007.
B/07	Improved Planning Code Data Exchange for Compliance Assessments	Consultation Closed	Consultation closed on 16 <sup>th</sup> April 2007, 10 replies received. Second consultation document circulated on 2 <sup>nd</sup> August 2007, with a closing period of 30 <sup>th</sup> August 2007. 7 replies received
C/07	Timescales for the National Grid notification of Operational Metering	Consultation Closed	Consultation closed on 18 <sup>th</sup> June 2007, 4 replies received.
D/07	Frequency Response Requirements	Consultation Closed	Consultation closed on 31 <sup>st</sup> August 2007, 9 replies received.
E/07	Data Exchange Provisions	Consultation	Consultation document circulated on 23 <sup>rd</sup> August 2007, with a closing period of 20 <sup>th</sup> September 2007.

**Table 2 - Grid Code Review Panel – Outstanding Issues – 6<sup>th</sup> September 2007**

Issue	Summary of current position	Date last Reviewed	Date Next review
Time Tagging of Dynamic Parameters, NTO/NTB, QPN'S	<p>Presentation to 5/09/02 GCRP meeting highlighted need for industry business cases to be developed in order to justify further progress on associated system changes.</p> <p>Last mentioned in GCRP minutes 21/11/02. Panel Members agreed that that business cases would need to be developed to justify the extensive changes to IS systems to accommodate Time Tagging. As of date nobody has come forward with a business case.</p>	21/1/02	September 2007
Capacity terms used in the Grid Code	Generation Capacity and Registered Capacity are defined differently in the BSC and Grid Code respectively and the need has been identified to review the various capacity terms used in the Grid Code with a view to rationalisation.	17/05/07	On-going
High/Low frequency trip settings on small embedded plant.	<p>Perceived lack of clarity of requirements identified for plant between 5 and 50MW due to apparent gap in existing documents (G59 and G75). Cause for concern for future but recognise that issue needs to be resolved asap due to leadtimes for design and manufacture of plant.</p> <p>DCRP Working Group established, GCRP to be kept informed of relevant developments decisions.</p>	23/09/04	On-going
Regional Differences in the Grid Code including Small/Medium/Large Power Stations	<p>GCRP obligation to consider regional differences included in the Grid Code. Working Group set up, focussing initially on definitions of Small/Medium/Large Power Stations. Implementation of B/06 on 1<sup>st</sup> September 2006.</p> <p>Review of outstanding issues to be completed. Panel agreed at September's 2007 GCRP to add the remaining regional differences items to the outstanding issues list.</p>	September 2007	

Issue	Summary of current position	Date last Reviewed	Date Next review
Power Park Module Extensions	The Grid Code PPM Working Group agreed that the issue regarding the applicability of technical requirements to PPM extensions would benefit from further analysis due to the complexity of issues surrounding the matter.	07/09/06	On-going
System Security	Ensure that the GCRP and the industry are kept informed of any developments.	24/11/05	On-going
Codification of Generic Requirements currently included in Bilateral Agreements	Review of current requirements in Appendix F5 which may be codified in the Grid Code.	15/02/07	On-going
Grid Code Implications of New Technologies	Review pending on new generation Grid Code obligations	15/02/07	Ongoing
Delegation of Authority for Busbar Switching Contracts	<p>ENA task group established to review existing processes.</p> <p>At the first meeting the new format including DOA where applicable was circulated to each DNO for comments and to provide feedback at 2<sup>nd</sup> meeting on 22<sup>nd</sup> May. At the meeting there were no adverse comments. Discussions taking place with relevant DNOs regarding the trailing of this format at Melksham.</p>	15/02/07	On-going
Control Telephony Electrical Standard	Establishment of a Control Telephony Electrical Standard for Scotland	17/05/07	May 2008
CC.6.2.2.2.2 (a) – Fault Clearance Times	Review required of CC.6.2.2.2(a) provisions such that the intention of the obligations is made more explicit	17/05/07	May 2008
System Telephony Electrical Standard	Establishment of a System Telephony Electrical Standard	20/09/07	September 2008

**Table 3 - Grid Code Review Panel – Regional Differences Issues – 06/09/07**

Issue	Summary of current position	Date last Reviewed	Date Next review
Technical requirement covering CC.6, CC.A.3, Planning Code requirements, OC5, BC2.A.2.6 and including any relevant definitions which may be grouped into the following areas: <ul style="list-style-type: none"> <li>○ Voltage Fluctuation</li> <li>○ Fault Clearance Time</li> <li>○ Protection Equipment</li> </ul>	September 2006's GCRP, Panel agreed to review the matter in a year's time.	20/09/07	
Operational process and interfaces, mainly the Operating Codes, including relevant definitions which may be grouped into the following areas: <ul style="list-style-type: none"> <li>○ OC1 &amp; OC2 – Demand Blocks, Load Transfer capability</li> <li>○ OC7 – Operational Switching</li> <li>○ OC9 – Black Start</li> </ul>	September 2006's GCRP, Panel agreed to review the matter in a year's time.	20/09/07	
The feasibility of merging the two sections of OC8 (Safety Coordination).	A review is currently on-going regarding the feasibility of merging the two section of OC8 (Safety Coordination). All Transmission Owners are participating in the review; findings and/or proposals from the review will be presented to the GCRP in due course.	20/09/07	On-going
