

Grid Code Review Panel – May 2010

Summary of Actions and Status

<u>Minute No.</u>	<u>Item</u>	<u>Owner</u>	<u>Status</u>
1270	Black start National Grid and Elexon to produce a paper on this issue for the next GCRP. Partial Black Start to be put on the GCRP issues list	National Grid/Elexon National Grid (TI)	Update
1289	Simultaneous Tap Changing National Grid shall send out one page of guidance to GCRP members.	National Grid (SC)	Update
1292	Harmonics Harmonics paper sent to DCRP should be forwarded round the GCRP.	National Grid (JG)	Update
1312	E3C LFDD National Grid have contacted all of the DNOs requesting DNOs to consider implementing several best practises. 6/7 have responded to date. Alan Creighton will raise the topic at the DNO pre meeting prior to the DCRP and Tom Ireland shall update the GCRP in September.	National Grid (TI)/ Alan Creighton	Update
1336	Constant Terminal Voltage This item shall be moved to the outstanding items of the GCRP.	National Grid (SW)	Update
1365	Protection Fault Clearance Times and back-up protection Draft legal text to be circulated to panel members before being issued as a public consultation.	National Grid (TI)	Update
1368	Time Tagging of Dynamic Parameters and NTO/NTB National Grid to review the functionality of the BM as soon as possible rather than waiting for the BM replacement.	National Grid (DS)	Update
1369	PPM Extensions National Grid to publish a paper on PPM extensions.	National Grid (GS)	Update
1370	Codification of Generic requirements currently included in the Bilateral Agreement		Update

<u>Minute No.</u>	<u>Item</u>	<u>Owner</u>	<u>Status</u>
	National Grid shall review the current F5s to see if there are any items on the highlighted list of generic requirements that still exist in the F5s.	National Grid (JG)	
1371	System-to-generator intertripping National Grid shall look at the current F3 agreements for windfarms and the Grid Code to check if there are any inconsistencies.	National Grid (TI)	Update
1372	DOAs for busbar switching contracts Some GCRP member stated that the new DOAs and SRS should be sent to generators, now to allow time to consider. National Grid to circulate these documents to generators.	National Grid (TI)	Update
1373	Control Telephony Standard National Grid shall look at the Control Telephony standard in the STCPs to see if it was broadly of the same form as a standard.	National Grid (TI)	Update
1378	EDL facilities for BM Participants National Grid will send round the ToR for the working group with a plan to provide an update at the September Panel meeting and to report back to the group in September	National Grid (TI)	Update
1379	BMU configuration of PPMs offshore Consultation to be sent round the GCRP panel.	National Grid (SC)	Update
1382	PNs from Intermittent Generation Final report on PNs from intermittent generation to be submitted in September 2010.	National Grid (SC)	Update
1386	Frequency and Voltage Operating Range The alternative frequency range text shall be added to the consultation.	National Grid (GS)	Update
1390	Multi Unit BMU SC stated that he can speak to the control room regarding JN's proposal.	National Grid (SC)	Update
1391	Update on Authority letter for Grain derogation extension National Grid to write to Ofgem on this matter. A response is required by July.	National Grid (DS)	Update
1394	Basic Electrical Safety Competence (BESC)	National Grid	Update

<u>Minute No.</u>	<u>Item</u>	<u>Owner</u>	<u>Status</u>
	National to investigate whether alternative schemes could be used. Generators should prove the existence of an equivalent to BESC.	(SB) Generators All	
1396	Basic Electrical Safety Competence (BESC) National Grid to inform the industry via the ops forum the process for re-enabling potentially disabled access key cards.	National Grid (DS)	Update
1402	Third Package Barbara Vest will act as the GCRP interface into the consultation document.	Barbara Vest	Update
1403	ENTSO-E Helge Urdal's ENTSO-E slides to be sent round the GCRP panel	National Grid (SW)	Update
1409	OC2 Appendix 1 National Grid shall correct the formatting error that has occurred in OC2 Appendix 1.	National Grid (TI)	Update
1410	E/09 Grid Code amendment National Grid shall review the E/09 Grid Code wording that was a consequential change of CAP169.	National Grid (TI)	Update
1411	Continuous voltage control National Grid and the novel generator rep shall convene a meeting to discuss the issue.	National Grid (JG) and GN	Update
