

## A/12 Information Required to Evaluate Sub-Synchronous Resonance

Consultation Responses and Next Steps

## Summary of Responses

---

- General support for the proposed changes
  - Recognition that the information is required
  - Some respondents sought firm assurance that information could be acquired for generators not captured by new provisions
- Generation developers' ability to meet 2013 trigger date questioned
  - It is proposed delay this until 1<sup>st</sup> April 2014
  - Delaying by a further 12 months would miss ~4GW of plant
- Suggestion that additional provisions are required
  - Additional Data Items – under discussion
  - Generator Protection – existing mechanisms can be used
- Desire for further discussion and information

## Next Steps

---

- National Grid intends to proceed with the proposal set out in the industry consultation subject to the following
  - A change to the trigger date to 1<sup>st</sup> April 2014
  - Addition of new parameters if need case can be established (subject to Panel views)
  - Establishment of further dialogue
- Next steps in industry engagement
  - Briefing at Customer Seminar/Operational Forum in the Autumn
  - Stakeholder workshop at an earlier date if Panel members agree this is of value
