Constitution & Rule

Membership

- Chair and up to 4 persons, NGET
- 1 person, Ofgem
- 3 persons, Large Power Stations, total RC > 3GW
- 1 person, Large Power Stations, total RC ≤ 3GW
- 2 persons, Network Operators in E&W
- 1 person, Network Operators in Scotland
- 1 person, Suppliers
- 1 person, Non Embedded Customers
- 1 person, Small/Medium Power Stations
- 1 person, BSC Panel
- 1 person, Novel Generator Units
- 2 persons, TOs

Current Members 2013/14

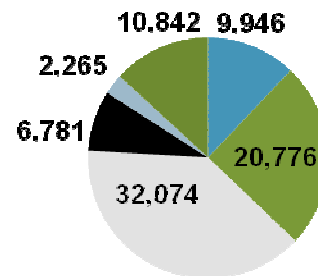

Generator Members

- Large Generator (>3GW)
EDF Energy (Killingholme Power Station), RWE (E.ON), SP Energy (SSE Generation)
- Large Generator (<=3GW)
Magnox
- Non Embedded Customers
Sizewell A
- Small/Medium Generator
Energy UK (Waters Wye Associates)
- Novel Generator Units
Senergy Econnect (REPower)

Change Proposal

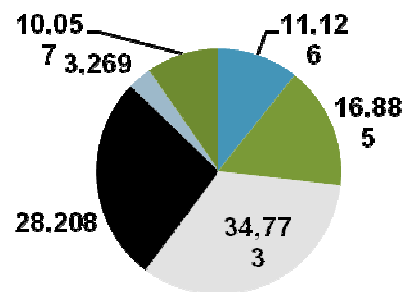

Generation Mix

2013

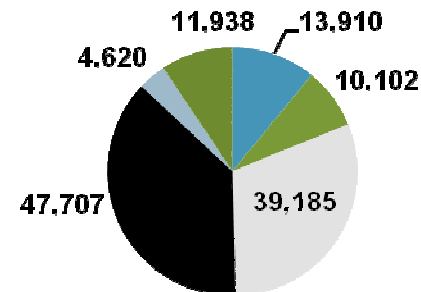

■ Nuclear ■ Coal ■ Gas / CHP ■ Wind ■ Other Renewables ■ Other

2021

2030

- Wind generation increases from 8% to 27% in 2021, and further to 37% in 2030
- Coal generation reduces from 25% to 16% in 2021 and further to 8% in 2030

Change Proposal

Offshore wind generation developer

- Dong
- Vattenfall
- E.On
- Centrica Renewable
- Iberdrola
- SSE
- RWE
- Statoil
- Eneco
- EDF
- EDP Renovaveis
- Mainstream

Change Proposal

Recommendation

Add a member representing renewable generator

in order to

- **reflect the requirements from renewable generators**
- **facilitate the development of the Grid Code**
- **provide strong and direct engagement for wider renewable industry**
