For reference the Applicable Grid Code Objectives are:

- To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity*
- Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);*
- Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole.*
- To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and*
- To promote efficiency in the implementation and administration of the Grid Code arrangements*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions		
1	Do you believe that the Original Proposal better facilitates the Applicable Objectives?	<p>Mark the Objectives which you believe the Original Solution better facilitates:</p> <p>Original <input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D <input checked="" type="checkbox"/> E</p> <p>Yes, I believe that the Original Proposal better supports objective (e) in improving the quality and therefore efficiency of the Grid Code.</p> <p>The original proposal will achieve this by resolving known current housekeeping issues and also sets out for information an improved process that will be followed by the ESO to monitor and resolve future housekeeping issues in a timely fashion. This will improve the accuracy and quality of the Grid Code.</p>
2	Do you support the proposed implementation approach?	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>Click or tap here to enter text.</p>
3	Do you have any other comments?	<p>This change is required to correct minor and non-material errors in the Grid Code that had been introduced inadvertently as part of the implementation of previous Grid Code changes.</p> <p>The amended process outlined in the paper is documented for information only but will be used by the ESO to improve the speed with which housekeeping changes are attended to in the future.</p>
