*GCRP – November 2015*

# Generic Templates Workshop Outputs – nationalgrid

## 16 October 2016

---

- Simplification
- References to RES – consistency required
- Removal of references to ongoing workgroups
- Clarity where ranges are defined
- ASM/DSM requirements
- Consistency/Transparency
- Repetition of Grid Code requirements
- Improved visibility of governance

## Progress

---

- Thorough internal review
- Revised onshore synchronous and non-synchronous templates issued for review in April 2015
- Comments received from a few workshop participants
- Second workshop proposed for June, rearranged for August due to availability of participants
- August workshop – review of comments received
- Templates updated and circulated to attendees of August workshop
- Governance Improvements introduced

## Next steps

---

- GCRP to note the publication of the new templates
- Onshore generation templates will be introduced by end of 2015
- All other templates will be updated and implemented in a similar format by June – 2016
- Annual review will be continued to address feedback
