### **CUSC Modification Update – CMP376, Queue Management Process**

An update will be shared on CUSC modification – CMP376, which is seeking to formally introduce improvements to the Queue Management Process developed through the ENA Open Works Project.

### **Early Competition Workstream – Grid Code Modification**

An update will be shared to provide further detail around the Grid Code Modification that will be submitted at the September Grid Code Panel to support the implementation of Early Competition.

### **Digitalised Whole System Technical Code**

A verbal update will be shared in relation to the Alignment, Simplification & Rationalisation (ASR) Workstream of the Digitalised Whole System Technical Code project.
