Key areas of discussion

The aim of Workgroup meeting 4 was to agree that Terms of Reference have been met, Review Workgroup Report and hold Workgroup Vote.

Assess and Vote Alternative Proposal

The Workgroup confirmed the vote for the alternative raised by the ESO in Workgroup Meeting 3 was unanimously voted in as WACM1.

RL talked through alternative 2 proposal requirements versus the Original, stating that there should be a provision for parties to recover the incremental costs to meet the new GC0156 obligations which, due to insufficient time, may have not been previously taken into account. The Workgroup unanimously voted the proposed alternate in as WACM2.

Draft Workgroup Report and Draft Legal Text Review

The Workgroup talked through the suggested amendments to the draft Workgroup Report and draft Legal Text, both of which were updated live within the meeting.

Terms of Reference Review

The Workgroup agreed that all the Workgroup Terms of References had been met.

Indicative Workgroup Vote

The Workgroup agreed that ahead of the finalised Workgroup Report and Legal Text being circulated, to take an indicative Workgroup Vote on the Original, WACM1, and WACM2 solutions.

- 5 Workgroup Members voted that each of the solutions were better than the Baseline.

Next Steps
