

Code Administrator Meeting Summary

Meeting name: GC0156 Implementation of the Electricity System Restoration Standard Meeting 13

Date: 14/03/2023

Contact Details

Chair: Banke John-Okwesa, National Grid ESO banke.john-okwesa@nationalgrideso.com

Proposer: Sade Adenola, National Grid ESO sade.adenola@nationalgrideso.com

Key areas of discussion

Review of Actions Log

The Workgroup agreed to close actions 73 through to 77.

- *Action 74: The Workgroup agreed that the Control Telephony Standard should move to the 'Specifications for electronic data communications facilities' section within the Electrical Standards Documents.*

Control Telephony Legal Text Check in

TJ took the Workgroup through changes which had been made to the draft legal text since the last Workgroup meeting where it was agreed that the information in Appendix 1 should be reference the relevant elements of the Grid Code so that parties are clear on their obligations.

Draft Workgroup Report

The Chair asked for clarity on outstanding comments and worked through these live on the screen. The most extensive discussion was that the Workgroup had not been able to confirm whether the Ofgem CBA had included retrospectively or 72 hour resilience within it's assumptions.

AOB

The Workgroup discussed the need for clarity on the following ahead of a Workgroup Vote:

- The Data Registration Code
- High level feedback from Ofgem on their CBA assumptions.
- The GC0148 solution and any knock on impacts

Next Steps

The next Workgroup meeting will be held on 17 March 2023

Actions

Action number	Workgroup Raised	Owner	Action	Comment	Due by	Status
73	WG12	MB/TJ	Amend Appendix 1 table within Control Telephony Electrical Standard		WG13	Closed
74	WG12	TJ	Review whether Appendix 1 table within Control Telephony Electrical Standard should be in the RES or within the Grid Code		WG13	Closed
75	WG12	AF	To review the latest DRC and amend to accommodate WAGCM1		WG13	Closed
