

Code Administrator Meeting Summary

Meeting name: CMP392 Workgroup 3

Date: 17/02/2023

Contact Details

Chair: Paul Mullen, National Grid ESO Paul.J.Mullen@nationalgrideso.com

Proposer: Garth Graham, SSE Generation garth.graham@sse.com

Key areas of discussion

Guidance note update

Updated guidance note shared with the Workgroup by JH.

Workgroup Discussion

The Proposer outlined his reasons for requesting full transparency of the calculation performed by the ESO and highlighted page 6 of the guidance. The Workgroup agreed the importance of visibility including data and dates and believed the current dispute process was not an issue.

A concern was raised by one Workgroup member as to whether the wider industry would understand or be able to access the data.

The Chair questioned if the Workgroup had any confidentiality concerns, but the Workgroup felt there were no issues regarding commercial sensitivity.

HH suggested ESO should fully outline their position about which data can be published and why in the Workgroup Report.

Timeline Review

The Workgroup felt further discussion was not needed prior to the Draft Consultation being issued and therefore agreed to cancel the planned Workgroup Meeting 4.

Next Steps

CG to review timeline and consider possible questions for the consultation.
