

Code Administrator Meeting Summary

Meeting name: CMP392 Workgroup 4

Date: 17/05/2023

Contact Details

Chair: Teri Puddefoot, ESO terri.puddefoot@nationalgrideso.com

Proposer: Garth Graham, SSE Generation garth.graham@sse.com

Key areas of discussion

The aim of Workgroup 4 was to review Workgroup Consultation responses, finalise the solution and legal text.

Workgroup Consultation responses review

The Workgroup held their Workgroup Consultation between 12 April 2023 – 5 May 2023 and received 6 responses, all of which were non-confidential. Five respondents were supportive of the proposed implementation approach and did not wish to raise a Workgroup Alternative Request for the Workgroup to consider.

One respondent was not supportive of the CMP392 Original Proposal in its current format believing it is not cost effective or beneficial to the end consumer.

Workgroup members reviewed the responses. The Proposer requested further clarification on the ESO Workgroup consultation response which noted that the solution would require the extra resources. The ESO representative explained that the solution would require outputs on a more regular basis from the ESO but offered to consult the revenue team to provide the Proposer with more detailed information explaining why ESO believe extra resources will be required.

Formalise Solution and Draft legal text

The Proposer and ESO representative agreed to collaborate offline to formalise the solution and to meet with a legal representation to consider the Draft legal text. It was agreed that details of this will be shared with the workgroup prior to the next meeting.

Alternatives

The ESO representative advised a possible alternative may be raised at the next Workgroup and all the information for Workgroup members on what to expect could be found in the 23/24 guidance note.

Next Steps

- Confirm the new timeline.
- Ensure ToR are covered.

- Review Legal Text.
- Workgroup vote.
