# Daily Balancing Costs

- BM Cost (Indicative)
- AS Cost (Estimate)

## Commentary

A short market throughout the day. 64MW of Non-BM Fast Reserve was run over the late afternoon period. Interconnector Trades for Margin were also required during this time. Overnight Voltage Control supported by Trades and BM Action in the North West and the South East of England. Trades were required from the afternoon onwards for System Inertia. Trades managed thermal import constraints in the South East of England during the morning. BM Action alleviated thermal export constraints in Scotland during the day, and in the East of England in the early hours of the morning.
