SBP/SSP Vs NIV 25-Jun-2023

Commentary

The market was short throughout the day except for periods between 00:00-03:00, 04:00-06:30 and 09:30-10:00. Trades were required for Downward Regulation. Trades and BM Actions supported Voltage Control. Further BM Actions were taken to support System Inertia and manage thermal export constraints in Scotland, Northern Wales and Northern England.
