

STC Amendment Proposal Form

CA037

1. Title of Amendment Proposal

Inclusion of list of parties to the STC.

2. Description of the Proposed Amendment

A proposed amendment to the STC to include a new schedule called 'Schedule A'. Schedule A will be a list of party names, addresses and company registration numbers.

3. Description of Issue or Defect that Proposed Amendment seeks to Address

Since the implementation of BETTA in 2005, there have only been three parties to the STC, and therefore there has been no need of including the contact details in the STC. With the introduction of Offshore Transmission Licence holders being made parties to the STC, the number of Transmission Owners will increase and therefore it would seem sensible to have a list of all Onshore and Offshore Transmission Owners that have acceded to the STC together with their contact details.

The proposed amendment seeks to put in place contact details for all STC parties. This will allow for easy collaboration and communication between parties and anyone interested in contacting the STC parties. As the number of Transmission Owners increases, it will be important to keep a record of all registered parties.

4. Impact on the STC

- Amendment to Section B.4.4.2 (Committee Secretary will need to revise Schedule A once a new party accedes)
- New Schedule A (to list parties)
- Amendment to the STC index (to include new Schedule A)

5. Impact on other frameworks e.g. CUSC, BSC

None

6. Impact on Core Industry Documentation

None

7. Impact on Computer Systems and Processes used by STC Parties

None

8. Details of any Related Modifications to Other Industry Codes

Not Applicable

9. Justification for Proposed Amendment with Reference to Applicable STC Objectives

Amending the STC in this manner would mean that the following objectives are better facilitated:

- (a) efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act;
- (b) development, maintenance and operation of an efficient, economical coordinated system of electricity transmission;
- (d) protection of the security and quality of supply and safe operation of the national electricity transmission system insofar as it relates to interactions between transmission licensees; and
- (e) promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC.

Notes:

1. Those wishing to propose an Amendment to the STC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 7.2 of the STC.
2. The Committee Secretary will check that the form has been completed, in accordance with the requirements of the STC, prior to submitting it to the Committee. If the Committee Secretary accepts the Amendment Proposal form as complete, then she/he will write back to the Proposer informing them of the reference number for the Amendment Proposal and the date on which the Committee will consider the Proposal. If, in the opinion of the Committee Secretary, the form fails to provide the information required in the STC, then he/she may reject the Proposal. The Committee Secretary will inform the Proposer of the rejection and report the matter to the Committee at their next meeting. The Committee can reverse the Committee Secretary's decision and if this happens the Committee Secretary will inform the Proposer.

The completed form should be returned to:
