

STCP Amendment Proposal Form

PA059

1. Title of Amendment Proposal

STCP11-1 – Amendment of process for more coordinated outage planning

2. Description of the Proposed Amendment

This amendment proposal proposes to amend STCP 11-1 to provide for better communications regarding outage requirements to facilitate a more coordinated approach to outage planning between NGET and the Transmission Owners (TOs). The proposal includes a handover meeting between NGET and the TOs for long term outage plans to move into the medium term phase, provision for more regular communications between NGET and the TOs and implementation of a 2 year outage plan for the next financial year and the subsequent year. The extension to a 2 year outage plan would allow NGET an earlier opportunity review the outages required in order ascertain whether there may be value in working in a different way or re-designing works to reduce outage durations.

3. Description of Issue or Defect that Proposed Amendment seeks to Address

Currently, the STCP does provide for certain communications between NGET and the TOs but does not say how and when these communications should take place. This causes an ad hoc system for understanding what outage placements and changes are required from the TOs and how NGET is placing those outages.

4. Impact on the STC

- Amendments to STCP11-1, STCP11-3 and STC Section C, Part Two will be required.

5. Impact on other frameworks e.g. CUSC, BSC

- NGET's Transmission Licence

6. Impact on Core Industry Documentation

- None

7. Impact on Computer Systems and Processes used by STC Parties

- None

8. Details of any Related Modifications to Other Industry Codes

- None

9. Justification for Proposed Amendment with Reference to Applicable STC Objectives

Amending the STCP as described above will provide better information to enable NGET to outage plan more economically.

Amending the STCP in this manner would mean that the following objectives are better facilitated:
(a) efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act; and
(b) promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC.

CHECK OTHER ONES

Details of Proposer Organisation's Name	National Grid Electricity Transmission plc
Capacity in which the Amendment is being proposed (i.e. STC Party or other Party as designated by the Authority pursuant to STC section B7.2.2.1 (b))	STC Party
Details of Proposer's Representative Name Organisation Telephone Number Email Address	Bec Thornton National Grid Electricity Transmission plc 01926 656386 Bec.Thornton@uk.ngrid.com
Details of Representative's Alternate Name Organisation Telephone Number Email Address	Kathryn Sorrell National Grid Electricity Transmission plc 01189 363161 kathryn.sorrell@uk.ngrid.com
Attachments (Yes/No): No	

Notes:

1. Those wishing to propose an Amendment to the STC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 7.2 of the STC.
2. The Committee Secretary will check that the form has been completed, in accordance with the requirements of the STC, prior to submitting it to the Committee. If the Committee Secretary accepts the Amendment Proposal form as complete, then she/he will write back to the Proposer informing them of the reference number for the Amendment Proposal and the date on which the Committee will consider the Proposal. If, in the opinion of the Committee Secretary, the form fails to provide the information required in the STC, then he/she may reject the Proposal. The Committee Secretary will inform the Proposer of the rejection and report the matter to the Committee at their next meeting. The Committee can reverse the Committee Secretary's decision and if this happens the Committee Secretary will inform the Proposer.

The completed form should be returned to:

Kabir Ali
