

# ITPR – STC Update Proposal

---

Section	Title	Level of change
Section D	Planning Coordination	Describes the investment planning process – major change
Schedule 3	Information and data exchange and specification	Describes the transfer of data – much more onerous compliance conditions exist over new data transfers – major change
STCP 11-1	Outage Planning	Was highlighted for changes – needs to change to match current working practices but not for ITPR
STCP 16-1	Investment Planning	Change to process to reflect NOA methodology and data transfer processes – major change
STCP 20-1	Seven Year Statement	Needs to reflect NOA methodology - Major change
STCP 21-1	Offshore Development Information Statement	No longer applicable - delete
STCP 22-1	Production of models for GB System Planning	Needs to reflect new model requirements for a full GB model – major change

## ITPR – STC Update Proposal

---
